ACUBRIEFS Librarian Services

For those interested in writing articles or doing research on acupuncture or related techniques (acupressure, TENS, etc) we have support for you. Our staff can search the Acubriefs in-house database using software that permits more sophisticated search terms and limits. We can generate reference lists and bibliographies in several formats and obtain full text articles from hard-to-find and out-of-print journals.

The charge for our Librarian Services is \$40 per hour with additional fees based on your requests and expenses such as copying, postage, copyright charges, translation costs etc.
